

ABDULLAH MUSTAFA ALKHANI

Senior Flutter Developer | Mobile Solutions Architect | Project Manager

Dubai, UAE | abdullahalkhane@gmail.com | +971 54 797 0112

[Portfolio](#) | [LinkedIn](#)

PROFESSIONAL SUMMARY

Senior Flutter Developer with 5+ years of experience designing, developing, and delivering high-performance cross-platform mobile and web applications from concept to production on Google Play and the Apple App Store. Expertise in Flutter, Dart, Clean Architecture, scalable application design, state management, RESTful APIs, and responsive UI/UX, with a strong focus on performance, maintainability, and code quality.

Experienced in leading development teams, managing end-to-end project delivery, collaborating with cross-functional stakeholders, and driving technical decisions that align with business objectives. Passionate about building modern digital solutions by integrating AI-powered features, intelligent automation, and cloud-based services to enhance user experience and operational efficiency.

Continuously exploring emerging technologies, including Generative AI, AI Agents, Large Language Models (LLMs), and workflow automation, to develop innovative, future-ready applications while following industry best practices, security standards, and scalable software engineering principles.

TECHNICAL SKILLS

Programming Languages: Dart, Kotlin, Swift, Java, C#, PHP, HTML5, CSS3, SQL

Frameworks & Technologies: Flutter, .NET, Laravel, Firebase, RESTful APIs, JSON, AI Integration, Large Language Models (LLMs), AI Agents

Mobile Development: Cross-Platform iOS & Android Development, Clean Architecture, SOLID Principles, MVVM, Repository Pattern, Responsive UI Design, State Management (Provider, GetX, Bloc), Performance Optimization, Offline Storage, Push Notifications, App Store & Google Play Deployment

Backend & Databases: Firebase (Authentication, Firestore, Cloud Messaging, Storage), SQLite, SQL Server, REST API Integration

Cloud & DevOps: Git, GitHub, GitHub Actions (CI/CD), Version Control, Release Management

Architecture & Software Engineering: Object-Oriented Programming (OOP), Design Patterns, Scalable Application Architecture, Modular Development, Dependency Injection, Secure Coding Practices

Tools & Design: Android Studio, Xcode, Visual Studio, VS Code, Postman, Figma

Professional Skills: Technical Leadership, Project Management, Agile/Scrum, Code Review, Problem Solving, Team Collaboration, Stakeholder Communication, Client Communication, Requirements Analysis

CAREER HIGHLIGHTS

- **5+ years** of professional experience in Flutter, mobile, and web development.
- Delivered **30+ production mobile applications** across enterprise and commercial sectors.
- Developed enterprise solutions supporting **20,000+ users**.
- Built real-time IoT applications for industrial fire protection and monitoring.
- Led cross-functional teams and managed projects from requirements through production deployment.
- Experienced in integrating AI-powered features, enterprise systems, and modern cloud technologies.

PROFESSIONAL EXPERIENCE

NAFFCO FZCO — Dubai, UAE

Senior Flutter Developer & Project Manager

September 2025 – Present

- Led the architecture, development, and continuous enhancement of **NAFFCO E-Connect**, an enterprise super app supporting **20,000+ employees** with HR self-service, CRM, HSE, approvals, attendance, notifications, executive dashboards, and multiple internal business services.

- Developed and maintained CRM mobile solutions that enable sales and service teams to manage customers, leads, quotations, inspections, and field activities with real-time data synchronization.
- Designed and delivered **AIGORIZM**, a real-time IoT fire protection platform providing live device monitoring, intelligent alerts, and operational insights for industrial fire safety systems.
- Built and integrated **10+ enterprise business modules** into a unified mobile ecosystem, improving operational efficiency and accelerating digital transformation.
- Collaborated with backend, IoT, and business teams to integrate numerous RESTful APIs, real-time services, and secure enterprise solutions.
- Applied Clean Architecture, modern state management, and engineering best practices to deliver scalable, high-performance production applications.

Comedia Information Technology — Dubai, UAE

Senior Flutter Developer, Project Manager & Web Developer

May 2023 – September 2025

- Led the design, development, and delivery of **30+ commercial mobile applications** across e-commerce, real estate, travel, enterprise, and service-based industries using Flutter.
- Managed end-to-end project execution, including planning, client communication, task allocation, and successful on-time delivery.
- Collaborated with backend teams to design scalable architectures and integrate RESTful APIs for high-performance applications.
- Contributed to backend development using PHP/Laravel, implementing business logic and supporting scalable enterprise solutions.
- Built responsive, user-centric applications with a strong focus on performance, maintainability, and seamless user experience.
- Conducted code reviews, mentored developers, and promoted engineering best practices throughout the development lifecycle.

Lens Media Production — Ajman, UAE

Web Design and Mobile Developer (iOS & Android)

January 2022 – 2023

- Developed responsive web and cross-platform mobile applications using Flutter, delivering modern and user-friendly digital experiences.
- Participated in requirements analysis, UI/UX implementation, feature development, and application testing.
- Collaborated with designers and backend developers to integrate RESTful APIs and deliver scalable solutions.
- Researched and adopted modern development technologies and best practices to improve application quality and development efficiency.

Afkar — Syria

Web Design and Mobile Developer (iOS & Android)

January 2019 – December 2021

- Designed and developed responsive web and mobile applications tailored to client and business requirements.
- Built intuitive user interfaces and implemented core application features using modern development practices.
- Diagnosed and resolved technical issues, improving application stability, performance, and user experience.
- Collaborated with cross-functional teams and clients to deliver high-quality software solutions within project timelines.

KEY PROJECT HIGHLIGHTS

NAFFCO E-Connect (Enterprise Super App)

Technologies: Flutter, .NET, RESTful APIs, Firebase, SQL Server

Designed and developed NAFFCO's enterprise employee and management platform, integrating HR self-service, approvals, attendance, notifications, executive dashboards, CRM, HSE, and multiple internal business applications into a unified mobile solution.

AIGORIZM (IoT Fire Protection Platform)

Technologies: Flutter, IoT, RESTful APIs, Real-Time Data, Firebase

Designed and developed AIGORIZM, a real-time IoT fire protection platform that monitors connected devices, generates live alerts, and provides operational insights for industrial fire safety systems.

MyKom App — mykom.co

Tech Stack: Flutter, Firebase, RESTful APIs

- Streamlined water and soft drink delivery with express options, multiple payment methods, and an intuitive interface.

Your Mode — yourmode.net

Tech Stack: Flutter, RESTful APIs

- Built a simple, secure e-commerce app with browsing and pay-after-approval features.

Al Hilal Estates — alhilalestates.com

Tech Stack: Flutter, Firebase

- Developed a property search app for buying or renting, focused on usability and search efficiency.

HMS Boutique —

Tech Stack: Flutter, iOS & Android

- Built a shopping app offering a variety of high-end lifestyle products.

Mallan App —

Tech Stack: Flutter, iOS

- Created a travel app for organizing tours and booking hotels.

Wtheq App — wtheq.net

Tech Stack: Flutter, Firebase, Secure Verification

- Developed an app for easy document authentication, offering a secure and user-friendly verification process.

Helpers App — helpersapp.ae

Tech Stack: Flutter, RESTful APIs

- Built a platform connecting users with qualified service providers, enabling profile browsing, reviews, and easy booking management.

Al-Matajir — hialmatajir.com

Tech Stack: HTML, CSS, PHP, Laravel, Flutter

- Developed an electronics e-commerce store and companion app with secure purchasing and user-friendly browsing.

Rino CM — rino-cm.com

Tech Stack: HTML, CSS, PHP

- Built a corporate site for a construction and contracting firm, highlighting project expertise and quality assurance.

Glory Tech — glorytech.ae

Tech Stack: HTML, CSS, Laravel

- Built a technology solutions website showcasing IT services, digital solutions, and client success stories.

Additional commercial projects: Aqua Ads, Room App, Meem Noon, Zoo Ads, Jammbak, Daleel App, Burashid Training App, Mega Alpha, 2Go App, 4U App, Dway, Dr WP, Boutiqaat MDE, Dar Al Sharjah, Sama Turkey, Al-Matajir Al-Thalath, and other client solutions.

EDUCATION

Bachelor's Degree, Software Engineering — Faculty of Informatics Engineering, AUST University

2016 – 2021

Graduation Project: Auction-Based E-Marketing Application (Grade: Excellent)

LANGUAGES

- English — Professional Working Proficiency
- Arabic (Native)
