

ABDULLAH MUSTAFA ALKHANE

Senior Flutter Developer • Mobile Developer • Web Developer

Dubai, UAE | abdullahalkhane@gmail.com | +971 54 797 0112 | [linkedin.com/in/abdullah-alkhane-710474229](https://www.linkedin.com/in/abdullah-alkhane-710474229)

PROFESSIONAL SUMMARY

Senior Flutter Developer with 5+ years of experience building robust, scalable, cross-platform mobile and web applications from concept through deployment on Google Play and the App Store. Skilled in clean architecture, state management, responsive UI design, and RESTful API integration, with a track record of leading teams and managing projects end to end. Currently combining hands-on Flutter development with project management responsibilities at NAFFCO FZCO in Dubai, delivering mission-critical applications for civil defense and industrial monitoring systems.

TECHNICAL SKILLS

Languages & Frameworks: Dart, Flutter, Kotlin, Swift, Java, HTML5, CSS3, PHP, Laravel, .Net

Mobile Development: Cross-Platform iOS & Android Development, Clean Architecture, State Management, App Store & Google Play Deployment

Backend & Database: Firebase, SQL, SQLite, RESTful APIs, JSON

Tools & Design: Git, Figma, UI/UX Design, Algorithms, OOP

Practices: Problem Solving, Project Management, Code Review, Team Collaboration, Client Communication

PROFESSIONAL EXPERIENCE

NAFFCO FZCO — Dubai, UAE

Senior Flutter Developer & Project Manager

September 2025 – Present

- Lead Flutter development for cross-platform mobile applications supporting civil defense and industrial monitoring systems, ensuring consistent performance across Android and iOS.
- Manage end-to-end mobile app delivery, coordinating with backend and IoT engineering teams to integrate real-time data feeds into responsive, user-friendly interfaces.
- Apply clean architecture and state management best practices to build scalable, maintainable codebases for mission-critical applications.
- Own project timelines, task allocation, and stakeholder communication to ensure on-time delivery of enterprise-grade mobile solutions.
- Conduct code reviews and mentor team members on Flutter best practices, raising code quality and team velocity.

Comedia Information Technology — Dubai, UAE

Senior Flutter Developer, Project Manager & Web Developer

May 2023 – September 2025

- Led front-end development for multiple cross-platform applications using Flutter, ensuring high performance and responsiveness across Android and iOS.
- Directed project management efforts — coordinating timelines, setting goals, and overseeing teams — to ensure timely, successful delivery.
- Partnered with backend teams to improve system architecture, streamline API integrations, and boost overall app efficiency.
- Contributed to backend development, solving complex problems to keep applications robust and scalable.
- Drove code reviews and debugging processes to uphold code quality, maintainability, and performance.

Lens Media Production — Ajman, UAE

Web Design and Mobile Developer (iOS & Android)

January 2022 – 2023

- Led Flutter front-end development, delivering visually appealing, responsive applications that elevated user experience across web and mobile platforms.
- Supported project analysis and planning phases, contributing to requirement gathering, feature planning, and timeline development.
- Collaborated with team members to troubleshoot development challenges, keeping projects on track and deliverables high-quality.
- Tracked emerging web and mobile technology trends, integrating new tools and techniques to improve outcomes and team efficiency.

Web Design and Mobile Developer (iOS & Android)

January 2019 – December 2021

- Developed and designed web and mobile applications with responsive, user-friendly interfaces that met client requirements and industry standards.
- Diagnosed and resolved complex development issues, improving app stability and user experience across platforms.
- Mentored co-developers, sharing expertise to promote effective problem-solving practices within the team.
- Partnered with cross-functional teams and clients to align project goals with expectations, delivering final products to specification.

KEY PROJECT HIGHLIGHTS

MyKom App — mykom.co

Technologies: Flutter, Firebase, RESTful APIs

- Streamlined water and soft drink delivery with express options, multiple payment methods, and an intuitive interface.

Your Mode — yourmode.net

Technologies: Flutter, RESTful APIs

- Built a simple, secure e-commerce app with browsing and pay-after-approval features.

Al Hilal Estates — alhilalestates.com

Technologies: Flutter, Firebase

- Developed a property search app for buying or renting, focused on usability and search efficiency.

HMS Boutique — [Google Play / App Store](#)

Technologies: Flutter, iOS & Android

- Built a shopping app offering a variety of high-end lifestyle products.

Mallan App — [App Store](#)

Technologies: Flutter, iOS

- Created a travel app for organizing tours and booking hotels.

Wtheq App — wtheq.net

Technologies: Flutter, Firebase, Secure Verification

- Developed an app for easy document authentication, offering a secure and user-friendly verification process.

Helpers App — helpersapp.ae

Technologies: Flutter, RESTful APIs

- Built a platform connecting users with qualified service providers, enabling profile browsing, reviews, and easy booking management.

Al-Matajir — hialmatajir.com

Technologies: HTML, CSS, PHP, Laravel, Flutter

- Developed an electronics e-commerce store and companion app with secure purchasing and user-friendly browsing.

Rino CM — rino-cm.com

Technologies: HTML, CSS, PHP

- Built a corporate site for a construction and contracting firm, highlighting project expertise and quality assurance.

Glory Tech — glorytech.ae

Technologies: HTML, CSS, Laravel

- Built a technology solutions website showcasing IT services, digital solutions, and client success stories.

Additional shipped projects include Aqua Ads, Room App, Meem Noon, Zoo Ads, Jambak, Daleel App, Burashid Training App, Mega Alpha, 2Go App, 4U App, Dway, Dr WP, Boutiqaat MDE, Dar Al Sharjah, Sama Turkey, and Al-Matajir Al-Thalath.

EDUCATION

Bachelor's Degree, Software Engineering — Faculty of Informatics Engineering, AUST University

2016 – 2021

Graduation Project: Auction-Based E-Marketing Application (Grade: Excellent)

LANGUAGES

- English (Professional)
- Arabic (Native)
